

MAPAN UPDATE

OCTOBER 2016

VOLUME 1, ISSUE 1

[Annual Fall Workshop](#) A special thank you to all members for bringing a friend! And another special thank you to the wonderful group of attendees to last Saturdays event.

A successful day was had by all. The evaluations confirm that the variety of topics presented were well received. Any and all suggestions are welcomed for future education events, please send to our new Education Chair Crystal Steel @ csteel@sbgh.mb.ca

[Next Educational Session](#) We are already busy planning our next event, date to be announced shortly, watch for notices from our new Secretary Gwen Lawrence

[Perianesthesia Nurse Certification by CNA](#) Perianesthesia has only been officially recognized by the Canadian Nurses Association as a nursing specialty since 2012. Interest was expressed by members at the workshop to join a study group facilitated by MAPAN. This is in the planning stages, it will be advertised and available to all current members. Members are encouraged to share information with colleagues and invite them to join MAPAN to be eligible to participate in this study group.

[NAPANc Annual National Conference](#)

November 5 & 6, 2016 in Toronto

Tune in to Your Practice

[Message from your MAPAN President](#). We began our international partnership in 2011. As a member of a Global Advisory Council (GAC) to our International Collaboration of Perianesthesia Nurses (ICPAN) I have learned that our association faces similar challenges to other countries. If you have a question or wish to participate in a forum with other perianesthesia nurses around the globe, go to <http://www.icpan.org>

At MAPAN our commitment to members is to facilitate education and to promote perianesthesia nursing in our province. Please share your ideas with your executive.

Trica Garrioch R.N.B.N.PANCO MAPAN President, pgarrioch@sbgh.mb.ca
