

Happy PeriAnesthesia Nurses Week Everyone

I am excited about the work NAPANc is planning in the coming year, our national conference in Vancouver June 9-11, 2017 and our fourth edition of our Standards of Practice. I hope you will find a way to participate in our professional organization.

Whether it is serving in your local district, attending a conference, sharing a journal with your colleagues, or educating the public on healthy living, your participation can make the difference in the success of our organization.

As PeriAnesthesia nurses, we all know and recognize the importance of our work in the care of patients in the PeriAnesthesia environment

It is on this premise that we provide the excellent and intuitive care to patients before, during, and after receiving anesthesia. NAPAN (National Association of PeriAnesthesia Nurses) is your national professional organization whose purpose is to support and promote the specialty of PeriAnesthesia nurses across the country.

As we gather at our work places this week let's join in celebrating our many successes. Continue to encourage and support one another as "Peri Anesthesia Nurses Coast to Coast Caring to be the Best"

On behalf of the Board and myself I would like to thank each of you for your dedication to the public and your profession.

Sincerely
Laura McNulty
President NAPANc
